THE TRIBUNE.

FRIDAY, JANUARY 12, 1857.

CONGRESSIONAL.

WASHINGTON, Jan. 17.—Senate not in session to-day.

It was intended to bring the lands to New Mexico, Kansas and Missouri for railroad purposes.

On motion of Mr. Grimes, a resolution was adopted, calling on the President for a complete list of persons charged with the disbursement of the public money who have failed for more than twelve months to settle their accounts and the reasons for such neglect.

Ninety-three against 81 voted, the Senate to allow fishing boats to six vessels which failed to complete their voyages.

The House was brought to an abrupt adjournment by the sudden illness of Mr. Giddings.

WASHINGTON, Jan. 19.—SENATE.—The Chair laid before the Senate a communication from the presiding officer of the Delaware Legislature, announcing the election of Mr. Bayard Senator from that State for 6 years, and Mr. Biggs to fill the vacancy occasioned by the death of Mr. Clayton.

The Senate then discussed and passed the diplomatic and consular bill.

An ineffectual effort was made to reverse the appropriation struck out by the House giving \$3,000 to each of the Consular pupils. An amendment was added to the bill, repealing so much of the former law as authorized the appointment of such officers. Ad. journed.

HOUSE.—On motion of Mr. Taylor a resolution was adopted instructing the Post-Office Committee to inquire and report on the general subject of the transportation of the mail to San Francisco, and whether it is not now expedient to contract for weekly mails from New York and New Orleans to San Francisco, by way of Tahiti, whenever the same road shall be completed.

A resolution was offered by Mr. Walker, which was adopted, making a similar enquiry relative to a weekly mail from Mobile to San Francisco.

Mr. Wessel offered a resolution which was adopted, calling upon the President to inform the House whether resistance organized or otherwise, has been made of to be apprehended against the official authorities of Utah, and to communicate the correspondence relative to the appointment or declination of officers in that Territory since January, 1852, and whether the laws thereof are practically administered with impartial justice to all the inhabitants there.

The first Tuesday of February was set apart for the consideration of business relative to the District of Columbia.

Mr. Campbell, of Ohio, from the Committee on Ways and Means, reported a bill for the relief of sick and disabled seamen.

Mr. Fuller entered into an explanation of the bill establishing collection districts in the United States, designating ports of entry and delivery, and other measures.

The object of this bill, he said, was to codify the numerous existing laws on the subject and to simplify and improve them so as to make them accord with the present condition of commerce.

On motion of Mr. Kelsey the Corruption Investigating Committee was granted leave to sit during the session of the House.

House adjourned.

Arrival of the City of Washington.

New York, Jan. 17.

The steamship City of Washington, of the Philadelphia Line, has been signaled below. Her dates are to Dec. 31.

The city of Canton was bombarded on the 20th of October by the English fleet under Admiral Seymour.

There had been collision at Canton owing to the seizure of twelve British seamen off board of a vessel. The British court interfered, but was insulted and threatened with violence, and, while remonstrating with the Chinese Governor General, was treated with contempt.

The matter was placed in the hands of Admiral Seymour.

On the 21st of October hostilities commenced. On the 24th the forts of Canton were taken and several destroyed.

The governor still rejecting Seymour's demand for satisfaction, the fire was opened on the 27th on the city walls, and the governor's palace walls were also stormed.

On the 29th the troops penetrated the palace, but were withdrawn in the evening. The British loss was 3 killed and 12 wounded.

Attempts at negotiation continuing fruitless, the city was bombarded on the 30th and 31st of November. On the 31st, twenty-three war-junks were destroyed by the British seamen. Further fire was given, but the Chinese remained obstinate.

The Bogue Forts were captured, foreign factories vacated, and property to a large amount burned. Commerce paralyzed.

Prussia and Switzerland continue their warlike preparations, but recent intelligence is favorable. The demands of Prussia are diminishing, and it is reported that Napoleon made conciliatory offers of arrangement with the Federal authorities.

A Prussian journal says that the American envoy offered a loan of twenty millions to Switzerland in case of need.

Austria strongly protests against the war.

The Federal Assembly met at Berne on the 27th. The President made a warlike speech. The Council asked leave to exert the necessary measures for defense, for unlimited credit, and permission to contract a loan of thirty millions.

The Wurtemberg Chambers protest against the passage of the Prussian troops across their territory.

The first troops passed through Berne on the 22d on their way to Basle; 15,000 are en route to Rhenish and the same number to Schaffhausen.

It is said that Count Kisseloff, Russian ambassador to Paris, formally agreed to the dissolution of the empire, as proposed by the allies.

The London Observer, the Govern-

ment journal, says arrangements are nearly completed for the full resumption of diplomatic relations with the United States, and that the minister selected will probably arrive at Washington before the 4th of March. No name is given, but the Observer says, that, when known, it will be well received on both sides of the Atlantic.

There are rumors in France of another loan.

Eighteen hundred Swiss residents of Paris have demanded passage's home.

Several French ships of war are fitting out for China.

Late and Important from Nicaragua.

New Orleans, Jan. 15.

The steamer Texas arrived here to-day from San Juan.

The Purser reports that the Costa Ricans, protected by the English fleet, had seized the steamboats on San Juan river.

The steamer San Carlos left Virgin Bay with California passengers on the 3d of January, but was captured by the Costa Ricans soop after getting into the river.

Col. Lockbridge, with 250 men, had possession of Punta Arenas but the Costa Ricans forces, exceeding 1000 men, held every other point on the river.

The report that Gen. Henningson had left the allies at Grenada is confirmed. He has joined Gen. Walker at Rivas.

Gen. Walker's army is represented as being in good spirits, while the allies are fighting among themselves.

Gen. Henningson received reinforcements on the 18th of December and on the 10th, after a siege of 19 days, he succeeded in driving the enemy before him, with a loss of 1,400.

Gen. Henningson's loss was 200. The odds against him were 10 to 1.

All the military stores, artillery, public documents, &c., were removed to Rivas, uninjured.

Walker took possession of Rivas without opposition, the enemy evacuating on hearing of his approach.

The Costa Ricans have taken possession of all the boats on the San Juan river, cutting off communication with Walker.

A special despatch to the associated press states that the Costa Ricans were protected in that city by the British.

Three hundred recruits were waiting at Punta Arenas for the repairing of the steamer, which would take five days, when they were determined to proceed up the river.

Just as the Texas was leaving, a messenger arrived at the station.

Walker, fearing that something was wrong, had come over, and finding the state of affairs had recaptured fort San Carlos, which had been taken by the enemy, and was rapidly coming down the river, scattering all before him.

Just as the Texas was leaving, a messenger arrived at the station.

DANVILLE.

Friday, Jan. 23, 1857.

RESOURCES OF UPPER KENTUCKY.—An article which we copy into another column, from the Richmond *Messenger*, headed as above, contains some suggestions which we agree with the editor, in believing to be eminently practical, and of the highest importance to the interests of Central Kentucky. We have merely time to invite attention to the matter at present, but will take occasion to say more in regard to it hereafter.

We would direct the attention of our readers to the card of THOS. H. SWORE, Esq., Real Estate Broker and Land Agent at Wyandotte, Kansas Ter. Mr. S. was formerly of this place, and we take pleasure in recommending him as a young gentleman of talent and energy. Any business entrusted to him, we doubt not, will be promptly and faithfully attended to.

HO, YE CHEWERS.—The establishment of Messrs. J. L. & W. H. WAGGNER, has long been known among the manufacturers of the wood, as the place to get a No. 1 article of Tobacco. They have just received a fresh supply of the "same sort," and we are indebted to them for a liberal sample of the same. We pronounce it emphatically first-rate.

M. L. HALLOWELL & Co.—We invite the attention of our mercantile readers to the advertisement of the above firm.

SOUTHERN PACIFIC RAILROAD.—We have received from Messrs. W. & H. BURKHARDT, the Louisville agents of the above Company, the first annual report of the executive committee to the Board of Directors. The Southern Pacific Railroad Company is operating under a very liberal charter granted by the State of Texas. On the completion of every section of five miles, the Company becomes entitled to eight sections of land of 640 acres each, for 5,120 acres per mile. When ten miles shall have been finished and ten more graded, the Company will have the right to claim from the State a loan of \$60,000, and the same amount for every section of ten miles thereafter finished. Other grants of land and other loans are guaranteed by the State upon the completion of the first twenty-five miles of road. The charter requires that twenty miles shall be finished by the 16th of February, 1858. The means are already provided for the first twenty-five miles, and the work is now being pushed forward as rapidly as possible. When it is completed to El Paso, 783 miles, it is very reasonably expected that the travel to and from California will pass over it—as the trip from New York to San Francisco can then be made in less than 13 days, at a cost of about \$125. There are many other interesting facts in reference to this project which we might state, but must defer it until another time. Circulars and pamphlets, giving all the needed information, the terms upon which stock may be subscribed, &c., can be had by addressing Messrs. W. & H. Burkhardt, Louisville.

BANKING IN MISSOURI.—The new constitutional provision on banking, which has just passed both houses of the Missouri Legislature, authorizes the incorporation of ten banks with a capital not to exceed twenty millions of dollars, the foundation of which shall be specie. No bank can be chartered upon any other basis. Heretofore the banking privilege of that State have been restricted to the State Bank, having a capital of five millions of dollars with five branches in the State—and which has, for over nineteen years, been conducted on a capital of \$1,200,000.

FOREIGN NEWS.—The foreign news which we publish to-day will be found quite interesting. The English fleet under Admiral Seymour at last advices, was engaged in bombarding the city of Canton, China. The preparations for war between Prussia and Switzerland were still progressing.

The news from Nicaragua is more favorable for Gen. Walker. His star seems to be again in the ascendant.

The revival at the Methodist Church at Shelbyville, was still in progress at last accounts. Up to Tuesday night ninety-four had united with the church—about eighty of whom professed conversion.

THE MARKETS.—We omit our usual review of the markets this week. The extreme cold weather and the suspension of navigation, has effectually checked business in every department of trade. Sales of Mess. Pork have been made at Louisville, at \$18. Flour has advanced 25¢ per bbl, and is now quoted at \$25.50-\$27.50 for superfine to extra. Wheat advanced 5¢, with sales at \$1.10 and \$1.15 for red and white.

The new Methodist church in Lexington, of which Rev. S. L. Adams is pastor, was dedicated on Sunday last. Several additions were made to the church on that occasion, and a subscription of \$1,200 raised, to liquidate the remainder of the debt incurred in building.

The Lexington *Observer* says that Elder B. Franklin is conducting an interesting and successful meeting at the Reform Church in that city. Quite a number have been added to the church.

AMERICANISM.—It "still lives."—From every quarter of the land, we have the most favorable indications of the vitality of the National American party; and a determination to "conquer or die," seems to be the spirit everywhere animating the advocates of American principles. This is right. Our cause is patriotic and just; its object is the elevation of American nationality; the salvation of the country from foreign influence—that most "baneful foe" of Republican governments. In such a cause, defeat, instead of disheartening, should nerve every arm for a fresh struggle. With a gallant band of nearly a million of voters in the Union, as a nucleus around which to gather and concentrate all the conservative elements of the country, it would be strange indeed for the party to give up in despair, because once overwhelmed by those factions which depend for their very life upon sectional agitation and excitement. The motto of every true American, therefore, should be, "Never give up!" There should be no such word as "fail" in our vocabulary; and the idea of abandoning the great principles for which we battle, because once beaten, or even beaten a score of times, should be scorned as cowardly, and unworthy to be entertained for a moment by patriotic men. If those principles are right, they will ultimately prevail. The Americans, so far from tamely permitting the opposition to gain back from them ground, reason why they should be turned, whilst the outsiders, consisting mainly of renegade Whigs, insist that there shall be a new shuffle, a new cut, and a new deal all around the board. Frequent meetings are held in different parts of the city at which the "manly art of self-defense" is illustrated with vigor and effect.

Few evils, remarks the *Knoxville Register*, are unmixed with good. Nearly all griefs have their consolations. It was a great calamity that our political friends were defeated in the Presidential election, but they are at least happy in having no fierce struggles and bitter strife among themselves for the spoils to be dispensed by the incoming administration. They have nothing to do but to live in perfect peace and harmony, co-operating together for the ultimate establishment of their glorious principles, while the raging Democrats are tearing each others' eyes out and battering each others' noses.

ELECTION OF U. S. SENATORS.—Within a few days past the following U. S. Senators have been elected for six years from the 4th of March next, viz: Stephen H. Mallory, Democrat, of Florida; Chas. Sumner, Republican, of Massachusetts; Jas. F. Simmons, Republican, of Rhode Island; vice James, Democrat; Simeon Cameron, Republican, of Pennsylvania; vice Brodhead, Democrat; Zachariah Chandler, Republican, of Michigan; vice Lewis Cass, Democrat; Jas. S. Green and Trusten Polk, of Missouri; vice Atchison and Geyer; and James A. Bayard and John W. Bates, of Delaware, all Democrats.

TELEGRAPHIC REPORTS from the East announce much colder weather than we have had here. On the 18th inst., the mercury at Watertown, N. J., was 10° below zero; and at Ogdensburg, N. Y., 36° below.

The fall of snow appears to have been general—extending to all parts of the country.

FOREIGN NEWS.—The foreign news which we publish to-day will be found quite interesting. The English fleet under Admiral Seymour at last advices, was engaged in bombarding the city of Canton, China. The preparations for war between Prussia and Switzerland were still progressing.

THE MARKETS.—We omit our usual review of the markets this week. The extreme cold weather and the suspension of navigation, has effectually checked business in every department of trade. Sales of Mess. Pork have been made at Louisville, at \$18. Flour has advanced 25¢ per bbl, and is now quoted at \$25.50-\$27.50 for superfine to extra. Wheat advanced 5¢, with sales at \$1.10 and \$1.15 for red and white.

AN AMATEUR TYPE-SETTER.—The editor of the *National Emporium*, at Mount City, Ills., has been trying his hand at type-setting. His experience in the art, will be found below:

He, Hon. Zachariah Chandler, elected by the Michigan Legislature successor to Gen. Cass in the United States Senate, is a merchant of Detroit. He was the Whig candidate for Governor of Michigan in 1852, but was defeated by his opponent, the Hon. Robert McClelland, the present Secretary of the Interior.

AN AMATEUR TYPE-SETTER.—The report that it was so cold one day this week, as to break off a marriage engagement by the freezing up of the young gentleman's passion, is doubted by the ladies. The general effect of cold nights is to bring the marriage fever to a crisis.

THE TERRITORIAL LEGISLATURE of Kansas met at Leavenworth on the 12th, and organized by electing the Rev. Thomas Johnson President of the Council, and G. W. Matthias Speaker of the House. Gov. Geary sent in his message on the following day.

U. S. AGRICULTURAL SOCIETY.—This Society, at its recent meeting at Washington City, accepted the proposition of Louisville, and will hold its next fair on the fair grounds near the latter city.

"LOVE AFTER MARRIAGE."—T. B. PETERSON, the enterprising book publisher of Philadelphia, to whom the literary public is indebted for much excellent reading, announces that he has in press, and will issue on the 31st inst., a new volume, containing "Love after Marriage," and thirteen other choice "Novellettes of the Heart," from the pen of the lamented Mrs. Caroline Lee Hentz. Mrs. H. was truly a popular writer, and her productions very deservedly occupy a high place in American literature. They can all be read with profit, as they appeal to the better feelings of human nature, and by their high moral and religious tone serve to make the reader better, while they give the less tend to interest and amuse him. Such books should speedily take the place of all the trashy stuff with which the land is flooded.

This book will be published in two forms—in one large volume, beautifully bound in cloth for \$1.25; or in two volumes, paper covers, for \$1. Address the publisher, T. B. Peterson, 102 Chestnut St., Philadelphia, who will send the book free of postage on the receipt of the money.

The Richmond *Whig* says: "The Democracy of Washington are in a terrible stew about the proper disposition of the offices under the new administration. The present incumbents challenge the production of any substantial reason why they should be turned out; whilst the outsiders, consisting mainly of renegade Whigs, insist that there shall be a new shuffle, a new cut, and a new deal all around the board. Frequent meetings are held in different parts of the city at which the "manly art of self-defense" is illustrated with vigor and effect.

After the adjournment of the Society, the President and such of the Vice Presidents and Directors as were present, met and elected R. W. Scott, of Franklin, (the present incumbent,) Corresponding Secretary; T. P. A. Bibb, of Franklin, Recording Secretary; and James W. Tate, of Frankfort, Treasurer. Mr. Desha, of Harrison, offered the following resolution, which was adopted, viz:

Resolved, That the selection of the time and place of holding the next Annual State Fair be postponed until the meeting of this Board on the first Tuesday in March next, in the city of Frankfort.

Those of our readers who are under the necessity of making applications to the Hair, will do well to read the advertisement of Prof. Wood's Hair Restorative in another column. In the space of time which it has been before the public, it has won for itself a reputation unequalled by any other article of the kind now known, and wherever tried, it has, so far as our knowledge extends, been tried with success.—*Jacksonville Constitutionalist.*

WE were authorized to announce Mr. W. G. Knox a candidate for Constable in the First District of Boyle County, at the next Annual election.

LUMBER WANTED.

PROPOSALS will be received, until Thursday, the 5th day of February, 1857, for Lumber to be used in the Amphitheater on the grounds of the Central Kentucky Stock Agricultural and Mechanical Association near Lexington. The lumber will be required to be delivered on the ground.

As it will take a very large quantity, proposals will be received for different portions, so it may not suit each person to furnish all.

The bill will be found at the Store of J. B. Axon, Secretary of the Board.

WE have a very large stock of CEDAR, PINE, and PINE-POLE SHINGLES, three-quarters of an inch thick and 15 inches long.

J. S. HOPKINS, Pres.

The Farmer's Column.

A THING WHICH A FARMER SHOULD KNOW.—If you wish to drive a cart into seasoned oak timber, and not to have it break or bend, just have a small quantity of oil near by and dip the nail before driving, and it will never fail to go. In mending carts and plows this is of great advantage, for the are generally made most of oak wood. In straightening old nails before using, let it be done on wood, and with easy blows. If done on iron they will be sure to break.

BENEFIT OF DEEP PLOWING.—The Michigan Farmer states that H. B. Lathrop, of Jackson County, in that State, put in a piece of wheat, plowing not less than eight inches deep. At the same time, a neighbor plowed an adjoining field, being careful that he did not run more than four inches deep. The deep plowing gave thirty-two bushels to the acre, and the shallow plowing only seven.

A portion of the sub-soil often operates as manure, and deep soil prevents excessive flooding as well as excessive drought. The result, however, may vary much with changes in localities, but may be easily determined by experiment.

FOOD FOR MILK COWS.—At a large milking establishment in the North of England, the cows are fed in the following manner, viz: Ninety-one pounds of clover hay, cut or chopped; and one pound of salt; one hundred and sixtysix pounds of brewer's grain; twelve pounds of ground flax-seed. These ingredients are mixed together, and equally divided as the food of twelve cows.

The hay, after being cut, is put into the mash-tub and soaked with boiling water. The other articles are then mixed with it. The result of this diet, it is said, was of milk the average yield of fourteen quarts, for a period of eight months in a season. A farmer who has experimented for the last five years in this matter, after trying nearly all kinds of food, says that this gives more milk and makes more butter, from corn meal, wet, with cut straw, than from any other food, by from one third to one half. It will not do to feed hay or stalks at the same time—it fattens the cows too much. Try four quarts of meal and one bushel of straw, per day—that is, two quarts morning and night—the straw at noon; they will gain in flesh at that. Stabbing is indispensable while feeding on this plan.

SINGER'S SEWING MACHINES!

GREAT success is always the most conclusive proof of great merit. Judged by this test there is no better saving Machine before the public—Singer's Sewing Machines.—After establishing the highest reputation in the United States, they were exhibited at the "Exposition Universelle" in France, where they carried off the highest premium; and a great manufactory to make them has been built in Paris.

In Every Branch of Industry in which sewing is to be done, these Machines can be used with immense profit. As the speed of the Railways is now an important factor in the growth of Singer's Machines concerned.
